

**ULSTER COUNTY BOCES**

**Supplementary and Library Material Selection  
and Adoption**

**POLICY # 4512/4513**

It is the policy of the Board of Cooperative Educational Services Instructional Services Center to select resources which are in accord with the goals of the schools and consistent with the Center's recommended and accepted acquisition systems. The BOCES reaffirms the School Library Bill of Rights of the ALA, the Board of Regents' Guidelines for the Selection of Controversial Instructional material (dated Oct. 29, 1976), and the general criteria cited below as being sufficient basis for selection. The BOCES is legally responsible for all resources which it possesses. The responsibility for the selection of resources is delegated to the Superintendent who should provide Instructional Services Center personnel with criteria with which to exercise professional judgment in developing the Center's varied collections.
